TOOLTREK

STORAGE SYSTEM

TOOLTREK

THE ULTIMATE TOOL STORAGE SYSTEM

Designed to the highest standards in functionality and durability the PRO and TRADE TOOLTREK systems revolutionise the way tools are stored, transported, and accessed on the job site.

The PRO TOOLTREK System offers best in class features tailored to the demands of skilled tradespeople. From heavy duty tool storage to versatile modules, each component is designed to withstand the toughest working conditions while providing optimised organisation and accessibility.

The TRADE TOOLTREK System delivers reliable performance and adaptability. The modular design allows seamless compatibility between the ranges, enabling users to mix and match components to create a personalised storage solution. Select PRO and TRADE products are designed for compatibility between the ranges ensuring maximum flexibility and efficiency, empowering professionals to elevate their productivity and tackle every task with confidence.

TOOLTREK SYSTEM COMPATABILITY LOCKING CLIPS

The intelligent TOOLTREK compatibility clip system bridges the gap between the PRO and TRADE systems, enabling seamless compatibility with a select range of accessories.

Designed to connect specific components from both ranges, allowing professionals to create a unified tool storage solution that combines the best features of each system for optimal storage.

SIMPLY CLIP TOGETHER!

PRO STORAGE SYSTEM AND ACCESSORIES

The OX Pro Tooltrek system can be integrated with both trade and pro accessories. This extends the versatility of the system and allows the customisation for a variety of needs.

TOOLTREK STORAGE SYSTEM – 3 PIECE

OX-P600703

The OX TOOLTREK Pro Tool Storage System is the perfect partner for your jobsite. The system's modular design allows you to customise the unit to your needs using other TOOLTREK Pro Accessories from the range.

Each part of the TOOLTREK system is manufactured from polypropylene, incorporates polyamide side clips and latches for robustness, and high-impact polycarbonate organiser lids for added protection. Not only this, but with an IP66 rated water resistant and dust-proof seal, its built tough!

The compact design, with an extendable handle, makes this system easy to manoeuvre from site to site across diverse terrains.

KEY FEATURES

- **Waterproof and Dust-Proof:** The OX TOOLTREK Pro Storage System, consisting of 3 pieces, features a robust waterproof and dust-proof design with an IP66 rating, ensures your tools stay protected on site.
- **Customisation Options:** This versatile modular storage system allows for personalisation through the integration of various TOOLTREK Pro and dual compatible accessories.
- **Strong Reinforced Construction:** Built for durability, these 100kg load capacity tool boxes boast an ultra-strong reinforced construction, capable of withstanding heavy use in demanding environments. The large 9" wheels are covered in a thick layer of rubber for rugged terrain.
- **Durability and Portability:** This storage system features polyamide side clips and latches for robustness, and high-impact polycarbonate organiser lids for added protection. Additionally, the wide handle is extendable and removable to easy transport, with a footplate for ease of mobility.
- **Configuration:** The OX TOOLTREK Pro Storage System - 3 Piece measures internally W460mm D250mm H300mm and externally W590mm D410mm H660mm. This includes the cart base unit with tooltray and removable telescopic handle, the OX TOOLTREK Toolbox with Dividers 250mm (page 14) and OX TOOLTREK Toolbox and Organiser 150mm (page 13).
