

CULINA

LIGHTING CATALOGUE

“ Modern & professional lighting range for commercial & domestic applications

ABOUT US

Culina has been a leading brand of Kitchen Lighting for almost a decade, specialising in innovative LED solutions for Kitchen and Furniture applications.

This latest catalogue coincides with the launch of 3 new products ranges that we're very excited about:

Firstly our best selling 240V under cabinet lights are now available with CCT, colour changing technology. Now not only can you install these items without the use of an LED driver, you can also choose between 3000k (warm white), 4000k (cool white) and 6000k (daylight white), enabling the user to select the light best suited to their kitchen.

Secondly our extensive new Culina Konect range gives the planner and installer the simplicity of choosing this plug and play system. There's no hard wiring required and with the range including under cabinet lights, link lights, plinth lights and LED tape,

the installer can interlink a wide variety of lighting to best suit their specific kitchen. In addition to the varied light sources there are also a number of controls available in the konect system, which include motion sensors, touch sensors and door sensors.

To compliment the above we have introduced the new wireless Kinetic Switch System, which allows your lighting to be controlled by using a wireless switch, smart phone or tablet app, or through Smart Voice Controlled devices .

With these new additions to the range the Culina brand has never been better equipped to offer everything required to best illuminate your kitchen or living space.

RECHARGEABLE UNDER CABINET LIGHTS

The slimline rechargeable cabinet light can be used for multiple applications such as your wardrobe, kitchen cupboard, bathroom counter, under cabinet, under the stairs or garage. No wiring is required and installation is easy with the adhesive magnetic strip provided. The light can be set to AUTO ON, ALWAYS ON or OFF. When set to AUTO ON, the light will automatically turn on when the PIR is activated by human motion from up to a 3 metre distance.

LEGARE LED UNDER CABINET LIGHTS

The Legare range is adaptable and best suited for under cabinet lighting. This premium model has an aluminium frame and a polycarbonate diffuser and comes in a variety of sizes, link leads and different colour temperature between 3000K (warm white) and 4000K (cool white). Legare range provides continuous light flow when link lights are butted up together with an opal diffuser that distributes the light evenly.

KONECT PLUG & PLAY SYSTEM

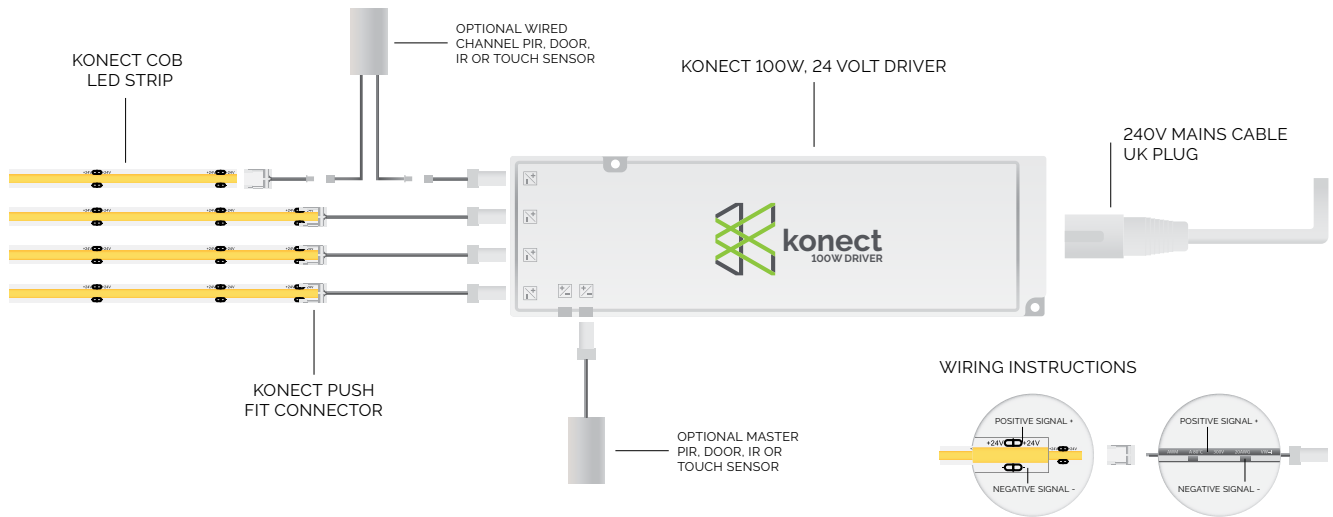

The Konect plug and play system features revolutionary wiresafe technology. Designed to protect all ports from overloading, short circuits and electrical surges, ensuring lighting systems stay as safe as possible. In turn conforming to BS7671 Regulations.

✓ **Easy to install**
no hard-wiring required

✓ **Customisable**
control & dim your lighting
exactly the way you want

✓ **Versatile**
Run multiple lights off one
multi-port driver

KONECT SYSTEM OVERVIEW

The new Konect connectors on each component are designed to only fit into the respective ports further enhancing safety.

Offering this balance of maximum safety and simplicity means less need for electrical qualifications on installation, saving you time and money on your next lighting project.

We have a range of drivers with a range of up to 7 connection ports and can power up to 100 watts worth of LED Lights in one 24 Volt lighting system. Full customisable with UK plugs available in 3 lengths, extension cables and a range of lighting you will be sure to find something suitable for your needs.

KONECT UNDER CABINET LIGHTS

The slimline under cabinet spot is made entirely from aluminium, with a thickness of only 4mm. The high light intensity is guaranteed by a cluster of 24 highly performing LEDs for 5W of total power which can be connected our Konect plug and play system. Designed for fast surface installation through a panel fixing mechanism that requires only two screws allowing you to easily hide the power cable directly on the back of the cabinet.

SLIMLINE UNDER CABINET SPOTLIGHT

Code	Colour (k)	Power (w)	Lumens	Beam Angle	Size
CUL-37797	3000K	5W	350	120°	190 x 70 x 4mm
CUL-3779	4000K	5W	350	120°	190 x 70 x 4mm

DRIVER REQUIRED

KONECT UNDER CABINET LIGHTS

This under cabinet light is designed for surface mounting or recessed mounting with a Ø60mm hole and installation depth of only 8mm. It is installed in wooden panels with both through and blind holes. The fixing system, with two lateral springs, is quick and does not require any tools

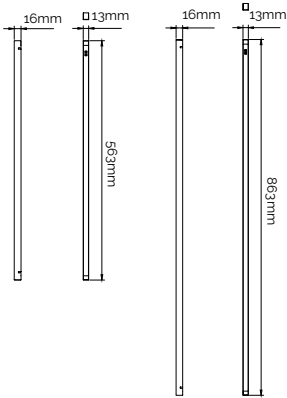

RECESSED/SURFACE ROUND UNDER CABINET LIGHT

Code	Colour (k)	Power (w)	Lumens	Beam Angle	Size

KONECT FLEXIBLE STRIP LIGHTING

KONECT flexible LED COB strip comes in a 5m rolls that can be divided every 5cm. A CONNECTOR can be used to join multiple pieces of strip lighting minimising wastage and also makes it possible to create a continuous flexible LED COB strip up to a maximum length of 6m. The compact dimensions ensure even light projection without shadow areas. The POWER CONNECTOR connects the LED strip to the driver without the use of any equipment and without soldering cables. The STRIP TO STRIP WIRE connector is perfect for wiring round corners. The STRIP TO STRIP connector joins two modules and guarantees electrical continuity. A professional cutting service is also available. Please get in touch with our sales department for more information,

NO DRIVER REQUIRED

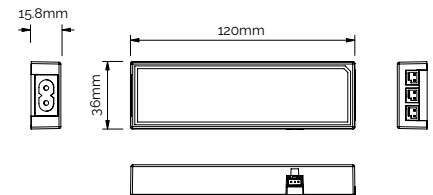

KONECT 24V PLUG & PLAY MULTI-PORT DRIVERS

The driver is the heart of the Konect plug & play system, and is suitable for connecting to all of the world's power systems. It has an integrated switching function and connections for all of the most popular types of switch.

- Solderless circuit connection - no hard-wiring required
- No need for an electrician
- Plug & play LED strip lighting solution
- Compatible with Konect sensors and dimmers for solderless controllable strip lighting
- Driver contains a fuse to assist with BS7671 Regulation

KONECT PLUG & PLAY SENSORS

Master Door Sensor

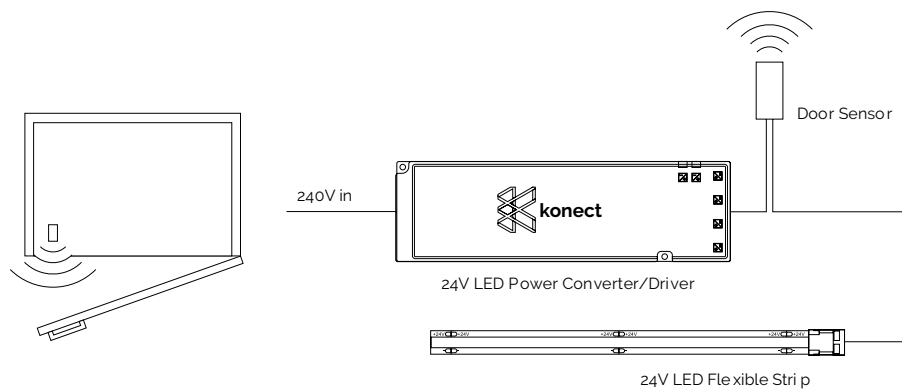

Master Door Sensor

IR DOOR SENSOR

The infra red door sensor switch enables you to switch lights on and off within cabinets without touching any buttons, using the infra red sensor. The switch senses when the cupboard door is opened and automatically turns the light on, and when the cupboard door is shut the lights are instantly switched off, saving energy and money.

Code	Control Mode	Max Load	Size	Cable Length
CUL-37775	Master	-	38 x 32 x 5mm	1500mm
CUL-37776	Channel	60W	38 x 32 x 5mm	2 x 1500mm

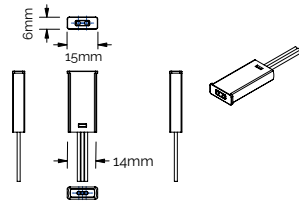

HAND MOTION SENSOR

Simply swipe your hand below the sensor within a 8cm distance enabling you to switch on and off any lighting without touching any buttons.

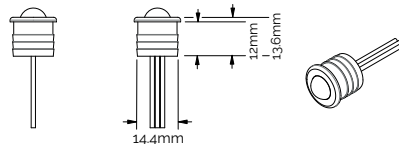

Code	Control Mode	Max Load	Size	Cable Length
CUL-37781	Master	-	38 x 32 x 5mm	1500mm
CUL-37782	Channel	60W	38 x 32 x 5mm	2 x 1500mm

PIR SENSOR

PIR sensor turns on the lighting when movement is detected within a 3m distance. The sensor has a 35 second timing delay so once no further movement is detected the lighting will automatically power off. This can be recessed into the cupboard or mounted flush with the extra bracket provided.

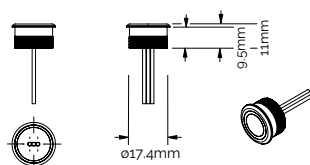

Code	Control Mode	Max Load	Size	Cable Length
CUL-37777	Master	-	38 x 32 x 5mm	1500mm
CUL-37778	Channel	60W	38 x 32 x 5mm	2 x 1500mm

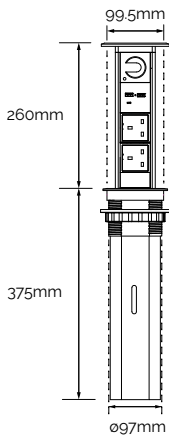

TOUCH SENSOR

The touch sensor features a blue backlit light has a slimline design and is great for a recessed application. Short touch for on/off function or long press for dimming.

Code	Control Mode	Max Load	Size	Cable Length
CUL-37779	Master	-	38 x 32 x 5mm	1500mm
CUL-37780	Channel	60W	38 x 32 x 5mm	2 x 1500mm

POP UP SOCKET

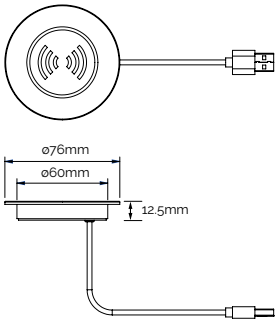

The contemporary pop up socket is a great slimline addition to your worktop. This motorised pop up edition is sleek and stylish boasting 2 sockets and 2 USB ports to charge USB devices. It also features a wireless bluetooth speaker.

POP UP SOCKET

Code	Sockets	USB Ports	Speaker	Size
CUL-37800	2	4.5w	1 x 2w	Ø99.5 x 260mm (when extended from surface)

WIRELESS QI CHARGER

Integrated wireless charger compatible with Qi enabled devices. Simply place the Qi enabled product onto the charger to begin wireless power transmission.

WIRELESS QI CHARGER

Code	Input	Output
CUL-37799	5V-2A	10W/7.5W/5W

- 10W Fast Charge Mode: Using QC 2.0/3.0 Adapter: Galaxy S20 / S10 / S10+ / S10e / S9+ / S9 / Galaxy Note 10 / Note 9
- 7.5W Fast Charge Mode: Using QC 2.0/3.0 Adapter: iPhone11 Pro Max / iPhone XR / iPhone 8 SE / iPhone 8 Plus

KINETIC WIRELESS SWITCHING

The wireless switch uses micro-energy acquisition technology. Kinetic energy is generated to create and transmit a radio signal to the receiver which in turn, will switch lamps or other loads on or off.

There is no longer the constraint of wiring location and no need to install back boxes or cut holes into walls. The kinetic switch can be installed anywhere or placed to maximise convenience.

✓ Wireless

no hard-wiring required

✓ 100% Safe

waterproof design no risk of electric shock

✓ Versatile

control your lighting via wall plate switch, smartphone app or alexa/google voice control

Wall Plate Switch

Smart App

Voice Control

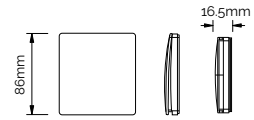

- Lighting can be controlled manually by using the switch, smart phone or tablet using the Smart Life App or connecting it to a voice controlled device such as Amazon Alexa or Google Home.
- The kinetic switches require no wiring or batteries which eliminates the need for installing back boxes, creating channels in walls and adjusting decor, thus speeding up the installation process and reducing labour time & costs.
- The switch can be installed anywhere in the home, including the bathroom due to its IP67 rating. The switches can be screwed to the surface, or stuck on with the adhesive pads supplied. They can also be retro-fit onto existing back boxes as they are the same size as standard switches.

1 GANG SWITCH

IP67 on/off 1 gang switch. Dimmable by long pressing when used with a dimmable receiver.

DINER SHADES

This industrial diner style pendant light looks great in a dining room, kitchen, or living room, with a shallow shade directing the light to a wider area for a more effective spread of light in the room. Our pendant lighting kits are a perfect match with an industrial style filament bulb page 40-41.

- Compatible with INL-27988 cable kits
- A range of colour combinations to suit your kitchen/dining room
